Webcast: Addons In Real Life @ CodeArt

CMS, OPTIMIZEZY (EPISERVER), TIPS AND TRICKS, TECH TALK

Allan Thraen | 3 Years Ago | PDF |

Last week I did a couple of talks at Episerver User Group meetings in Denmark about how I've tweaked my Episerver installation at codeart.dk in order to work as a great blogging platform. I also showcase a few of the addons I'm currently working on. Now I recorded the talk, so if you have a 23 minutes to spare, then grab a coffee and make some popcorn and have a look.

This is my first codeart recording, so take a look and feel free to send me feedback, suggestions and ideas! Or leave a comment below if you want me to show more.

Slides are below as well.

Allan Thraen · 3 years ago
Thanks Dejan! Turns out embedding a video isn't enough, you apparently have to make a video Public on youtube for other people to be able to watch it. That just shows how often I publish stuff on YouTube :-). Fixed now.
